

## HOW 2 UPGRADE WinQS® AUTOMATICALLY – VERSION UPGRADES

WinQS will inform you of a new version upgrade when you log in. The following screen will pop up when you open WinQS and a new version upgrade is available:

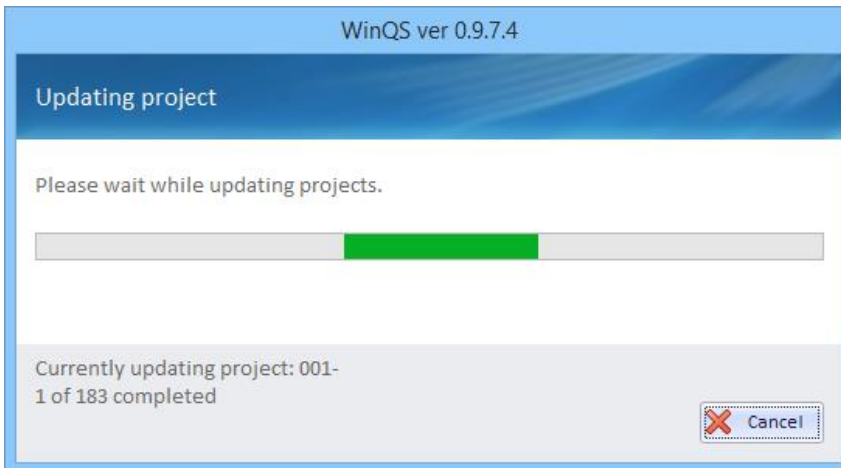

After this process is complete, the following screen will pop up:

You will be prompted whether you want to upgrade all projects. If you select "Yes", all projects listed will be upgraded and you will be able to track the progress. This will take a few minutes.

**Don't select "Yes" if you are in a hurry.**

If you select No, each project will be upgraded once opened.

An automatic "Check for a WinQS Upgrade" from within WinQS can be located in the menu under Help>Check for Upgrade. If the version of WinQS is up to date, the following message will pop up:

Once the automatic Upgrade is complete, your WinQS will be upgraded & ready for use.

Any new WinQS ReadMe Documents & Help files will be installed etc.

All WinQS Upgrades will be issued in this quick easy manner.

Should you have problems upgrading, please inform us at [support@wings.co.za](mailto:support@wings.co.za), then we can forward a manual upgrade to you.
